*Zoltán Simon*

*I am Zoltán Simon, a 25-years-old PhD student from Hungary. I have a master degree in biology.*

*I like to create Star Wars posters, wallpapers and DVD cover designs. I started picture editing in 1998. It is self-taught completely.*

*I have a web site to share my works with other Star Wars fans worldwide: <http://simonz.co.hu>. The number of my visitors reached one million in June 2005 (now it is over 7 millions). The feedbacks make clear for me that many people like my works.*

*When I make a picture I have two basic purposes: first, I want to tell a quite complex story - a story of a character or the change in the relations between them. Second, I want to create a mood, to mediate a feeling which depicts a unique thing, a place or a moment of the saga.*

*I often listen to the music of John Williams when I need some inspiration - his gorgeous music can really transfer everybody to a galaxy far, far away.*

*I created more than 400 pictures. Here I collected 15 pieces of my favourite works.*

*Some of the pictures of this album are properties of Lucasfilm, Ltd. because Events Manager Mary Franklin asked me to submit some pictures for publishing them in Bantha Tracks.*

*I hope you will enjoy my pictures.*

A handwritten signature in black ink, appearing to read "Simon Zoltán". The signature is stylized and fluid, with a long horizontal stroke at the end.

HEREBY I STATE THAT THESE PICTURES ARE MY ORIGINAL CREATIONS.
